

World-Class Business Applications
for Real-Time Management of
Direct Sales Companies

Since 2003

The Past

Now

- Dissimilar software applications
- Delayed reporting
- Time consuming data entry
- High demand on IT resources
- Limited and expensive growth path
- Hardware & software compatibility issues
- Limited physical implementation and licensing options

- Single-Source, End-to-End solutions
- Real-time data access / Global capability
- Modular implementation
- Infinitely extensible (functionality /power)
- End-user enabling / reduced IT demand
- Mobile device & Web access enabled
- Diverse implementation and licensing options – SaaS, Hosted, Corporate License
